Champion Chow Poisoned at the Dog Show; Strange Woman with 'Candy' Sought

Lord Cholmondeley, Who Has Forty-Two Blue Ribbons, Seriously Stricken—Caller Who Tried to Feed Pekingese Is Suspected.

Mrs. John Z. Adams' \$5,000 chow champion Lord Cholmondeley, winner of forty-two blue ribbons and as many cups offered to any one dog by the Chow Chow Association, was poisoned this afternoon in its pen at Madison Square Garden.

A mysterious woman, seen acting queerly in various parts of Madison Square Garden since the opening of the Westminster Kennel Club's forty-second annual show, is believed to be the poisoner. She was seen Friday night feeding the dog something, and when Mr. Adams rushed to her side she smiled and said it was "only candy."

Mr. Adams said, however, that the woman appeared to have a small piece of meat in her hand which seemed to be covered with a white powder.

Tried to Feed Pekingese.

The same strange woman was escorted away from the Pekingese dogs, some valued highly, when she attempted to feed them.

Champion Lord Cholmondeley is considered one of the two best Chows in the country. At the Westminster Club's show it was rated second to Champion Yucy, of the Coassock Kennels.

It was at first believed that the dog had devoured so much of the poison that it would die, but its condition was greatly improved this afternoon. A close watch was kept to-day for the strange woman.
