

**1931 The Johnsen Family plays
dressup with their chow
“Jack”**

Early 1930's photos from an family album posing with their chow "Jack"
Restored images from the ©Sandra Miller Collection

How could you not smile at this beautiful girl playing dressup
with her chow? The glasses make it!

There are certain old photos that just make me chuckle and count my blessings that I am owned and loved by this amazing breed. The people who adore the Chow from past to present day are equally delightful as you will see in these photos I restored. These were tough ones to fix so I settled on just getting some detail to come through so that the chow and fun loving family could "party on" for a few more years to come.

I purchased these 8 very faded and tiny photos from an abandoned family album, based on what I thought looked like a chow dressed up in a night shirt and cap, and ended finding I wanted to belong to this fun loving family from Florida and meet their chow "Jack". This dog had a good sense of humor to be dressed up for these photoshoots!

The photos above are the original snapshots I scanned at 1200 dpi and loaded into my media files. So faded and small

ABOVE: 1931 photo of the whole family with the chow on the chair in his nightshirt and night cap. Lets party!!!

This photo was in bad shape but thank goodness I was able to crop the girl and chow out.
