

RESTORATION PROJECT -CHOWTIME

1940'S CHEF WITH HER CHOW

IT'S CHOW TIME!

This original 1940's photo above was severely scratched faded and the chow was blurry

After scanning this 2" photo I repaired the digital copy, pixel by pixel to restore the details, while keeping the lovely patina and character of the original photograph

I think this is one of the most charming photos ever!! How cute is this lady chef and her chow....getting ready for CHOW TIME!!! The original photo plus 4 others of the same dog and woman are in my own collection. This one I couldn't bear to see fade away from the pages of chow history so I worked a couple of hours on it in Photoshop. What a challenge but fun

to see the improvements unfold!!!

ABOVE IS A BLOWN UP SECTION OF THE 2" PHOTO SHOWING THE
SCRATCHES AND BLURRINESS.

This photo is the same woman as above. I am not certain if the chows are the same dogs.
