THE DOG'S TRAVELING PALACE

1936 DOGDOM MAGAZINE - SANDRA MILLER COLLECTION

I had to share this ad with you all as it really shows how far we have come in the travel end of the sport of dog showing. Handlers in spacious motorhomes???....not in 1936!! This setup on your car's running board was considered cutting edge and the lap of luxury travel for your show or field dogs. The magazine cover is included in the thumbnails below as well as a closeup of the text and full page advertisement. Click each to see them huge! This is just one of many priceless advertisements I have in my extensive collection of antique to vintage dog magazines which I'll be posting over the next months.
