

Chow Chow enthusiasts are always welcomed at Greenhill, and whether users of the stud dogs bring their bitches personally, or send them unaccompanied, they can rely on every attention being bestowed on them.

The kennel has some most attractive stud cards giving full details of the dogs, and Miss Williamson will be pleased to forward one on application.

Occasionally young stock is for sale, and when these appear in the advertisement columns of *Our Dogs*, purchasers can absolutely rely on obtaining the very best value for their money.

With the present team, and further promising youngsters to shortly make their debut, the outlook for 1937, as far as the Munan Chow Chow Kennel is concerned, is distinctly promising.

MUNAN CHINKY CHOO, product of a famous kennel. If ever a dog was bred "in the purple," this most outstanding youngster is it. Owing to his youth, only selected bitches will be accepted, but with more age this restriction will be withdrawn. He started his show career at an early age and has proved a most consistent winner, and a great future lies before him. His outstanding wins at Cruft's are still fresh in the memory. Those who use this dog will have the advantage of puppies by a dog consistently being shown during their development. The photograph was taken while still in puppyhood. It is entirely untouched, and clearly demonstrates his wonderful head and general conformation. He has had a fine puppy career and already holds one "best exhibit in show" to his credit. He is a glorious colour, and when his coat and body are fully developed will be one of the most striking dogs in the country. Very big offers have been refused for this dog from leading kennels. He is being retained as one of the most promising young stud forces in the fancy.

MUNAN CHINKY CHOO
(Mulfra Zambo—Mulfra Daisy).
FEE ... 4 Guineas.

SEPHA NOTSMRUF ["Luton News" Luton

MRS STIFF has done much to popularise the Chow Chow. Her kennels house some very good specimens, one of the most prominent being that splendid bitch Sepha Notsmruf, a rare-headed home-bred bitch by the well-known winner Rukri Mi Chung, by Ch. Choonam To To. Sepha's dam is Ashvale Shang Ti by Ashvale Wu Ling. Sepha Notsmruf has over 50 prizes to her credit, won in good competition this year at open and championship shows.

Another very good specimen worthy of note in the kennels is the cream dog Snow Snow, which owns a dark eye, is compact, and well boned. He is by Gai Tuk of Ttiweh, born 20th August 1934. His stud fee is 2 guineas. Both dog and bitch excel in coat and are very sound. Snow Snow is at public stud. For further particulars apply to Mrs Stiff, who always has puppies and adults for sale, and will be pleased to give information on the breed to anyone thinking of founding a kennel.
