

# THE MULFRA CHOW-CHOWS.

The Property of William Scriven, at Alma House, East Bowling, Bradford.

THE past year has been a wonderfully successful one for the noted Mulfra strain of Chow-Chows, and the popular owner, Mr. William Scriven, that past-master in the art of breeding and staging these fascinating dogs.

It is now over twenty-four years since Mr. Scriven commenced in the Chow fancy, and from the very beginning he has consistently bred and shown winners. This year's successes includes 9 championships, 9 reserves, 42 1sts, 31 2nds, and 27 3rds, all at championship events, and the making of two champion bitches in Ch. Mulfra Blosson and Ch. Mulfra Rachel.

Mr. Scriven has now in his possession no fewer than five champion bitches,

all of his own breeding—surely something of which no other Chow breeder can boast.

Of the Mulfra Chows illustrated, Mulfra Marguerite, then fifteen months old, was the championship winner at Crufts last show, and will no doubt be seen in the ring again as soon as she has recovered from rearing her four puppies.

Mulfra Bertie is a very promising young bright red dog, with small dark almond eyes, sire Mulfra Magnet ex Mulfra Lucy. He is very compact and well-balanced, good in head and with the best of legs, and a natural stand-off coat. He has been shown but once, at Sheffield, when ten months old, where he won three 1sts and was reserve for championship. F. B. FOWLER.
